If you have not yet heard of goji, you are not alone.

The secrets of its nutritional benefits have remained a mystery to most of the world.

### **The mystical Himalayas:**

- Soil that is incredibly rich in minerals upturned from deep within the earth many, many years ago.
- The highest place on earth, closest to the sun—capturing the sun's life-giving energy.

## *The First Healers*

**The Himalayans were the first natural healers**

- One of their most prized secrets was the fruit of the native goji vine, which had been flourishing in the Himalayan valleys since the beginning of time.
- From its discovery in the Himalayas thousands of years ago, to the present day, those who know of the remarkable goji are awed by its unmatched ability to maintain wellness.
