

Feedback from Bridge201 Students February 2010

You are so diligent and responsible, Roberta. Go have fun, sit in the sun and know that we are all so much better bridge bidders than ever before!
Lynda

Thank you, Roberta.
I enjoyed your teaching very much!
See you around the BIL! So happy I joined.

Warmly,
Lisa

-

Hi Roberta, I think the thanks goes to you, very definitely. Speaking for myself I thoroughly enjoyed your class, and explanations...not that I can say I understood everything, nor really absorbed everything, but your notes should now be more meaningful to me and I shall give it a real try to put all this into practice. I am not an intense bridge player, and do not envision myself as being in tournaments, but this has been a real challenge for me, and I am happy I have stayed this long. **(I am 80 years old, soon to be 81, and really never played cards of any kind before this! I did know what cards looked like...LOL)** While I look forward to Hondo's class (and indeed have kibbed several of his mentoring sessions over time and found him to explain things so that even I understood most of it) I will truly miss you. It would be fun if some of us could get together with you from time to time just to go over what we have had, and see how well we could do with playing hands with you!

Again my deep appreciation for your hard work and dedication to Bridge 201 and beyond!

Terlian (Theresa Woods)

Roberta,
Great explanation of RKC today. I really feel I can put it on my profile to try instead of Blackwood. Thanks so much for all your help. You are a great teacher! Now you can rest. Kibitzing some of the classes I have been reading about splinter bids but am not ready to employ until I take further lessons with examples. Thanks for the humor.
Lynda

--I know tomorrow is your last lesson with us. I have really enjoyed your teaching. You are so organized, it is unbelievable. Hopefully I can remember some or part of all the lessons that you have taught us- that would be a mitzvah:)

I hope to see you and play with you again.

I usually have to leave by 5PM on Tuesdays, and I really wanted to say Thank you, Thank you and Thank you again for teaching us all.

Thanks for all you have done.

Hearts to you, Davida

---Hello Roberta, just to say thankyou for the lesson last night. I learned a lot with many things to go over and think about. Your gentle humour makes it good fun. At my age I now tend to learn a ----- little more slowly ! Brian

---Roberta,

I hope your realize that you are doing a terrific job!

I am always coming at your lectures from two view points, as a student (first and always) and as a professor (of way too many years). So, I can see that what you are doing is clear and focused but then when you get caught up in examples that aren't quite what you want them to be -- oh, I am there with you (happened to me yesterday when I needed to correct things four tines!).

Your work is appreciated by the students, of which I am happy to be one.

Cheers,
Sue---
